

# **“ PPP ”**

## **People for Proper Policing in North Wales**

### **A simple statement of the truth**

**To a member of NW press ,...who failed to comment or reply!**

Thanks for highlighting the results of a major potential perversion of the course of justice. If the PPP hadn't arranged legal assistance from Chester and Viv Williams and the others had not had the courage to protest and keep up the challenge, despite the usual threatening letters from Inspector Ahari and the CPS, they would have all been prosecuted. **They would have been fined particularly heavily if they had fought the cases as individuals. They would also been listed as criminals in Police statistics and abused by their insurance companies or even lost their licences /livelihoods.**

Viv is wrong NOT to blame the Police, they consistently break the letter of the law. They, in almost 100% of sites, abuse the speed camera regulations and the spirit of the law and generally ignore real road safety opportunities and issues. Viv Williams is a just one very law abiding & honest citizen, millions of whom pay their fines and collect their points almost out of embarrassment. He said to us initially, **THAT IF** the whole road from Bangor to the A55 was changed to a 30 mph limit **BUT clearly signed** he would be happy to drive within that limit ... sadly that attitude is an abuser's charter and Ahari et al love that attitude. It would also be a disaster in road safety terms for a whole range of reasons.

There are other abusive uses of speed cameras in operation across North Wales and the AA partnership ALL conspire to pervert the course of justice on a daily basis. I.E. police officers, councillors, MPs AMs, CPS lawyers, even Hospital managers and Magistrates conspire against their fellow citizens, constituents, friends, neighbours, relations and ALL the visitors that support us in N.Wales with their money and/or services. What a bloody disgrace!!

The press have a duty to expose this evil practice and surely editors and reporters DO NOT need the PPP to remind them what is so obviously going on. The attachments should be self explanatory. The PPP data base contains nearly 200 articles that cover every aspect of Policing, crime... stats, causes, prevention and a myriad road safety issues...unlike Brunstrom WE take the whole business pretty seriously

**This letter is about the abuse of 1000s of law abiding drivers by North Wales Police and the Arrive Alive Partnership on the road into Bangor via Maesgerchen. It is just one of many similar events taking place on a daily basis across North Wales..... for the PPP**
