Antisocial incidents across North Wales

The information below is from the NWPF website. We were looking for the levels of antisocial behaviour that are reported to NWPF. The graph below shows that currently over **8100 incidents** are recorded each month. BUT the table **only lists a total of 16,184** for the year to date. Of these nearly 80% are of criminal damage, public disorder or vehicle related. We are not clear why there is this large discrepancy. Note the so called hate (related=inferred) crimes amount to 0.4% BUT figure very highly and disproportionately in the thinking and blogging of the leadership. **Assaults/wounding/robbery are 16 x higher**
