

**“ PPP ”**

**People for Proper Policing in North Wales**

## **Flintshire council believes in keeping an eye on you**

Flintshire CC spent more than **£200k last year on 115** ( yes 115 )CCTV cameras. This equates to **one per 1300 people**. In addition there are “ stand alone “systems . The cameras are partly funded by North Wales police.

The council are not able to measure how successful the use of CCTV has been !

For example they do not hold any information on how many crimes have been solved and how many prosecutions have taken place as a result of CCTV's.

**The PPP comments ..... Residents of Flintshire may appear on TV, but is a blurred image, of them being mugged, the 15 seconds of fame they really want!**

Enter **CCTV** into our **articles search** box to see our articles from years ago.
