

# “ PPP ”

## People for Proper Policing in North Wales

The key to the abbreviations is ...

**VAP** means **VIOLENCE AGAINST THE PERSON.**

**BOTD** means **BURGLARY other than of a DWELLING.**

**UTMV** means **UNAUTHORISED TAKING of a MOTOR VEHICLE**

The above data is from the North Wales Police website (bottom RHS homepage) for the period Feb.2006 to Feb.2007 **BEFORE the government changed the reporting rules WHICH apparently drastically reduced the total number of ALL categories of crime recorded and detected by as much as 65% ...**

A magic wand indeed. How even the previous year to date varies so much is another mystery.

**WHAT is going on !?**

**If we look closely at VAP for Western Division it had increased by 24% and for the force 21% year on year.**

If we look at the same crime in the Western division after the change we have a **REDUCTION** of 13% and for the force a reduction of 18%. Year to year!!

If we look at total crime for the whole force **AFTER** the change we have 15,830 crimes recorded a 13% reduction !! and 21,306 detected or 37%.

So the change in reporting system changed the +21% trend in violent crime to a - 13% decrease across the force.
