North Wales Police Management information bulletin Sept.2008

<http://www.north-wales.police.uk/nwp/freedom/foiNews/articlefiles/34-September%202008%20Management%20Information%20Bulletin.pdf>

This detailed report is worth studying and will require some interpretation particularly of their terminology and jargon. The YTD and LYTD trends seem 'strange' at face value.

Give you local Inspector a call and query anything of interest about your own area.

NOTE there are 8 pages of data about their fuel usage and carbon emissions. **NOT OUR MOST** pressing concern!.
