

People for Proper Policing in North Wales

Real community Policing in North Wales

The North Wales Police force now has a community policing portal on it's main website at <http://www.north-wales.police.uk/portal/>

An example of a positive approach to night time safety and efficient use of resources for CRIME PREVENTION is at http://news.bbc.co.uk/1/hi/wales/north_west/6916032.stm

An example of activities to keep children occupied during holidays is at http://www.north-wales.police.uk/portal/blogs/north_flintshire_district/archive/2007/11/05/virtual-golf-no-way.aspx

The PPP comments There are two major issues, way above all others, that have been brought to our attention on the one hand vandalism, graffiti, & criminal damage to property AND on the other speed camera abuses by NWP's Arrive Alive i.e. all cases of ANTI SOCIAL BEHAVIOUR.

The real police across North Wales are seen to be tackling the former issue with zeal and imagination. The unreal police in NWP are still abusing the motorist at every opportunity within the limits of their somewhat reduced budget. This latter activity seriously detracts from the former good work.

IT IS about time the police Authority and the councils took steps to put a stop to Arrive Alive's abuses and redirect their resources.

In the mean time we recommend you have a look at the above sites and encourage your local members of the REAL POLICE and wherever possible provide resources for their activities such as the Golf Experience in Flintshire
