

People for Proper Policing in North Wales

Road Charging ... update ... what it could cost YOU

The government's proposal to introduce road pricing will mean you having to purchase a tracking device for your car and paying a monthly bill to use it.

The tracking **device will cost about £200** and in a recent study by the BBC, <http://news.bbc.co.uk/1/hi/uk/6158060.stm> the lowest monthly bill was £28 for a rural florist and £194 for a delivery driver. **A non working Mum who used the car to take the kids to school paid £86 in one month.**

On top of this massive increase in tax, you will be tracked. Somebody will know where you are at all times. They will also know how fast you have been going, so even if you accidentally creep over a speed limit you can **expect a NIP with your monthly bill. (another stealth TAX)**

If you care about our freedoms and are sick of the constant bashing of ALL classes of driver, please sign the petition on No 10's new website. **Note access to the site and petition is difficult due to the huge number trying to access it!**

<http://petitions.pm.gov.uk/traveltax/>

The PPP comments..... In a democracy we should not have to resort to petitions (but sign it anyway!) We recommend that you write (e.mail) your MP/AM stating that you will refuse to pay it as the £47+ billion already taxed from motorists is our contribution. Note ... The PPP believe we are ALL Motorists.

Find your MP at <http://www.parliament.uk/directories/directories.cfm>

Your MP is expensive and they should represent your interests and protect our democracy. The Total cost to the taxpayer of each member is over £200,000 P/A including their salary of £ 60,277 (as of Nov.1st 2006), NOT including PENSION! plus their expenses ... as recorded at
