### Vandals target cars in Caernarfon

Jan 20 2009 by Kelly Fenna, Daily Post

VANDALS damaged cars in a spate of attacks in **Bethel, near Caernarfon.**

**A police spokeswoman** said: “Four incidents took place overnight on December 29 and January 11, 14 and 19 in the village. **These acts appear to be random and unprovoked.**”

The PPP comment .... Who is this nameless, faceless and dare we say, pointless, spokeswoman. What does she mean by random and **unprovoked**. Despite ‘incidents’ on the 11<sup>th</sup> the vandals felt perfectly safe returning on the 14<sup>th</sup> and the 19<sup>th</sup>. Will the Daily Post ever comment on the number of such incidents described in their own stories **below** (easily found in 0.26 seconds by their own search engine!)

When will the Daily Post headline read .. ”Local police Target and arrest Car Vandals in Caernarfon and across North wales”

We say again and again, where are all our 2600 Police Officers and staff ??, What on earth are they all doing??. They cost us £550/annum /household. They are certainly Not in the police stations most of the time.

The man responsible for virtually all aspects of **policing** in North Wales is The Assistant Chief Constable Ian Shannon. (this leaves Brunstrom and Wolfendale to dabble in diversity, racism, language, drugs and politics generally). Verbatim from NWPF website ...**The ACC is the lead officer responsible for neighbourhood policing** and partnership; tackling serious and organised crime and **major crime and terrorism**; professional standards; operational support, **including roads policing, conflict management and police use of firearms, dogs and air support** and forensic science; and the management of **police information and media handling**. He is also responsible for the main Force computer based record management system and also chairs the **Niche** RMS National User Group.

Ian is also heavily involved in national **ACPO** work, **including police use of firearms (leading on the explosive method of entry project)** and he also **leads** for **ACPO** on police driver training issues. He is also the England and Wales **ACPO** representative for search and rescue.

No wonder he hasn't time to deal with your mundane cases of crime and vandalism or even spend time in North Wales instead of at **ACPO** HQ. As the chief spin Doctor he also has his work cut out supporting his Disingenuous boss! And feeding the spokeswoman her inane and pointless comments.

If your village and area has a population of 3000 and each person is charged £228/annum for policing that is £684,000 per year. **You could have your own security force of 15 looking after you 24/7/365 on 5 shifts of 3.** What cover does North Wales police actually provide for your village?.

We know this a hypothetical question and answer, but it is the simple calculation anybody in a business does except North Wales Police. Why? because they don't really see you as their customers! Your local paper shop delivers to you a service so does your postman and milkman. These companies do the sums and provide the service, it is not rocket science and all without blue lights on the milkfloats or blackberries for every postman.

If you agree with us how poor the service is, join us or just support the PPP, go to your local police meetings, complain to your councillors and MPs and PA members **THEY are all paid for by your taxes BUT do THEY really work FOR YOU?**
