People for Proper Policing in North Wales

The PPP core group members carried out an opinion survey in North Wales across New Year 2004/5. The survey did not require people to state their name and address but only their Post Code to confirm the areas covered. Some participants were reluctant to even list their postcode!. We did not record any other private & personal details of the participants such as age, sex or ethnicity. More than 300 people were surveyed throughout North Wales. Note . Some of those interviewed did not wish, or were unable, to answer ALL the questions.

The raw results of the survey were as follows, in each case preceded by the verbatim question.

a) Do you Live - Travel - Work - in North Wales **Yes** / **No** **Your Post Code** _ _ _ _ _

b) Has a crime been committed against any member of **your household** in the past twelve months **Yes 109** / **No 174**

c) If **Yes** What was the police response **Positive 42** / **Negative 59** / **don't know 3**

d) Was the crime **solved** **Yes 9** / **No 90** / **don't know 6**

e) Do you believe crime is going **down in North Wales** **Yes 10** / **No 257** / **don't know 7**

f) Do you believe speed Cameras **AS used in North Wales save lives** **Yes 37** / **No 217** / **don't know 14**

g) Do you believe North Wales Police is managed **Well 6** / **Reasonably 89** / **Badly 193**

h) Do you believe Chief Constable Brunstrom is fit to hold office **Yes 9** / **No 233** / **don't know 34**

i) Do you believe North Wales Police statistics that crime is going down and their detection rates are **the best in the country** **Yes 8** / **No 254** / **don't know 14**

We conclude that the statistics issued by the authorities and the surveys carried out by Egni Research have not produced an accurate picture of crime or opinion in North Wales. We have on file the questions from all and the 'results' from most of the surveys carried out at the tax payers expense..
